iStudio 100 Privacy Notice

Last Modified: 26th June 2025

What does this Notice apply to?

This Notice applies to the iStudio 100 system and related services ("iStudio"). iStudio is a product of Darim Systems with offices in Gwangmyeong, South Korea. We respect your concerns about privacy and value our relationship with you. This Notice explains what data we collect, how it is used and stored, and the rights you may have.

How do we collect and use personal data?

iStudio 100 does not collect or transmit any personal data by default. The system is designed for offline, on-premise use. When used with third-party platforms (e.g., Zoom, YouTube), the user must actively initiate any data sharing. No automatic logging, cloud syncing, or credential storage is performed by iStudio.

Third-party integrations

Users may manually connect iStudio 100 to third-party platforms using industry-standard protocols such as HDMI or RTMP. All connections must be explicitly initiated by the user. Darim Systems does not retain any login information or access credentials.

Support and diagnostics

Darim Systems offers optional support services that may involve temporary remote access tools. These sessions are only initiated at the user's request and are not persistent. No automated diagnostics or telemetry is used.

Security and access

iStudio 100 is a local system. All scene data, visuals, recordings, and presets remain under user control and are stored locally. No cloud upload or backup is provided or activated by default.

Data retention

All data within iStudio 100 is stored on the local system. Users can delete any data at any time. Darim does not have access to or retain any backup or archival data.

Regulatory compliance

iStudio 100 is designed with data minimization in mind and aligns with Korea's Personal Information Protection Act (PIPA). Its default operating mode also supports data privacy expectations under GDPR principles.

Your rights

As the user, you retain full ownership and control of all data processed using iStudio. If support logs or remote sessions are involved, you may request a summary or deletion of any data collected during such events.

Changes to this Notice

We reserve the right to modify this Privacy Notice. Any updates will be posted at www.darim.co.kr. You are encouraged to review this Notice regularly.
